

Taping Form for: Harrison Ford
(Actor Name)

Taping date: 7-22-75

Due date and time: - August 10, 1975

Project: - "The Star Wars"

Role: Han Solo

Slate specifics – CU on face and zoom out to full body shot. (do not tilt)

Full name(Last name first)-ROLE-height (feet/inches)

FORD_HARRISON_HAN_SOLO_SLATE_5'10"

Scene specifics – each scene to be natural, real, grounded. Do NOT wear costumes or use props. Actors don't have to speak the language of Kashyyyk and the Wookiee.

Taping specifics – lighting and sound very important. They care if it is shot well!

File naming specifics –

In your audition request they sent you this – please name all clips like this:

FORD_HARRISON_HAN_SOLO_SLATE_5'10"

FORD_HARRISON_HAN_SOLO_S1TK1

FORD_HARRISON_HAN_SOLO_S2TK1

FORD_HARRISON_HAN_SOLO_S3TK1

Format specifics –

nothing mentioned about the files format(compression and extension) in this case.

If there was it would say they only want .mov files, or not h.264, make sure they can all stream, format for Win and Mac, etc- the technical stuff about the files goes here.

Uploading/Delivery specifics –

delivered to MDR office- **LOOK UP THE ADDRESS and suite# before shooting**

deliver 4 separate clips

slate by itself

slate goes in front of all 3 takes

If digital delivery is specific,ie, via WeTransfer, Dropbox, BOX,or if it's proprietary,-make certain you can connect to it without issue – and remember-MOST are going to wait until the latest time possible and you don't want to miss a job because you waited and got jammed with all of the other actor's uploads at the same time.

Additional considerations –

N/A – if you always put an answer, you are sure there is nothing to be concerned about. It means you looked (before shooting) and found nothing. No time for wondering.
